Organic Medicinal Chemistry

Take-home followup to Midterm Examination II

Name: \_\_\_\_\_

This followup to Midterm Examination II is worth up to half the points you missed on Midterm Examination II. This followup may be done outside class. You may use the Merck Index, the chemical literature, the WWW (but not people contacted via the WWW) your textbooks (both for this class, and for previous chemistry courses), and the MOE software to complete this followup. You may also refer to Midterm Examination II and your class notes. Do not discuss this with other students or instructors other than Dr. Parrill. **Turn in the followup AND Midterm II on May 3<sup>rd</sup> at the beginning of the final examination.**

**General followup: Write a complete and corrected answer to any problem you did not receive full credit (4 points) for.**
